Dear Alison

Many thanks for allowing me to comment on the latest response from Transport Scotland. I am somewhat surprised of the timescale that Transport Scotland has suggested it will take to complete the costing. However given the fact that I have been made aware, from a reliable source, of Transport Scotland's disinterest and complete refusal to , actually, commit to a grade separated junction being put in place at Laurencekirk perhaps I shouldnt find this so surprising. I feel this is just another attempt by them to delay and put a stop to the campaign.

I would like to hear from them direct that they have no intention to upgrade the junction at Laurencekirk. At least then we would have a bit of honesty from them.

Many thanks
Jill Campbell
