David May Letter of 5 March 2012

Dear Petitions Committee,

I have heard from a journalist that your committee is considering the petition on the Laurencekirk Junction on Tuesday and am disappointed that I was not aware of this earlier as I would have requested the opportunity to make the case for the petition being kept open. I apologise for this letter being sent so late but would have contacted you earlier if I had known. I would appreciate your help in ensuring the letter is given to each of the committee to read and I would be happy to expand on this if needed.

Yours Sincerely,

David May
