

PE1400/Q

Petitioner Email of 21 January 2014

Dear Chris

Many thanks for this notification.

It would appear from the letter of 17 December 2013 from the Animal Welfare team leader in the Scottish Government that the consultation is drafted but awaiting authorisation from the Cabinet Secretary. We are concerned about the delay as it reduces the opportunity to link in with the legislation at Westminster, which seems to us the most efficient way to legislate on this particular topic.

As always, we are very grateful for the Committee's consideration of the Petition.

With best wishes,

Libby Anderson
