Dr Marjory MacLean Letter of 6 July 2013

Dear Stuart

Thank you for your communication. Below is my response to your questions. Please let me know if you wish any further information.

- The Committee is supportive of the proposal to form a Scottish Hyperemesis Network. Will you consider including interested parties, such as the petitioner, in taking this forward?

**I would expect the Scottish Hyperemesis Network to communicate and work with established patient support groups.**

- Please would you provide an update on the progress of the network and the outcomes of the study day on management of hyperemesis. What stage is the proposed network at?

**The study day is planned for 25<sup>th</sup> November, and the network will develop from this. At the moment I am in communication with colleagues, drawing up a programme for the study day.**

Regards,

Dr Marjory MacLean  
Consultant Obstetrician  
Ayrshire Maternity Unit
