

PE1828/D

Petitioner submission of 22 December 2020

National Transition Training Fund is new and difficult to get advice on this, no one at Routes to work South or South Lanarkshire Council have spoken about this, so I suggest they don't know about it.

The rest of the schemes are for youngsters. I am 52 years old so they are not appropriate to my petition, to open up access to opportunities, making welfare to work agencies more competitive.

I feel other welfare to work agencies will be more forthcoming in their approach and other councils may take what I believe would be a more responsible approach to monitoring those who win tenders for these contracts.
