

Submission received from Johanna Quinney: A Scottish Approach to Taxation

Hello

Thank you for creating the opportunity to comment on this issue.

My thoughts are:

I would like parents to have more choice in where their taxes are spent in relation to plurality in education systems.

So that the amount per child goes with the child to the school of choice of the family, depending on the type of education they want for their children, including independent schools and schools which do not offer the curriculum for excellence but an independent curriculum, eg the international baccalaureate, the Waldorf Steiner curriculum.

I would also like the choice for people to state their preference for their portion of taxes not to be spent on weapons or the military. whilst also having very valid and constructive choices for where taxes are spent that promote peace, cooperation, harmony, community building etc.

With thanks
best wishes

Johanna
